## Using commercial prices

1. Use the Rate Code Look-up Table to find the applicable rate code for your package's origin and destination. The Canada Rate Code Look-up Table is located at [canadapost.ca/prices](https://canadapost.ca/prices).
2. Reference the price sheet for the parcel service desired, e.g., Xpresspost™. Cross-reference the parcel weight or volumetric equivalent (VE)\* with the rate code determined in Step 1. These prices apply to each individual item separately. Weights of multiple pieces cannot be combined.
3. Add the price for the options you need.

\* For more information about volumetric equivalent (VE) refer to the *Parcel Services Customer Guide* at [canadapost.ca/parcelservices](https://canadapost.ca/parcelservices).

For more information call 1-866-607-6301 or visit [canadapost.ca](https://canadapost.ca).
